Positive Learning Environments John De Nobile 2017-04-05 How do you create a learning environment that's productive; one where students are engaged, learning and happy? And how do you ensure that inappropriate behaviours are kept to a minimum? This exciting new text introduces the key concepts you need to know to create and maintain your classroom as a positive learning environment. It begins by introducing four essential components that are the cornerstones of creating a positive, productive learning environment. These positive practices will set you on the pathway to success and help you establish classrooms that recognise and encourage appropriate behaviours while reducing the probability of inappropriate behaviours. It then examines in turn each of the four main groups of evidence-based approaches to managing student behaviour: behavioural, cognitive behavioural, psychoeducational and social justice approaches. For each it discusses the theories that inform them, their practical applications for fostering appropriate behaviours and also when and how to use them to proactively intervene, if necessary. By the end you will be empowered to select appropriate theories, approaches and strategies and bring these together to develop your individualised classroom management plan: one that suits your own theoretical beliefs, professional philosophy and teaching style.

SOS Help for Parents Lynn Clark 2005 A set of teaching/counseling aids for professionals who offer parent education classes, parent counseling, or guidance to parents on child rearing and discipline.

Consultation Don Dinkmeyer, Jr. 2015-12-22 The methods presented by Don Dinkmeyer, Jr., Jon Carlson, and Rebecca Michel in Consultation are based on the assumption that problems in the home and classroom result not only from the direct actions of disruptive students, but also from the expectations of teachers and parents. This newly expanded fourth edition continues the tradition of encouraging change in supposed 'problem' children by helping authority figures recognize and alter the part they may play in exacerbating negative behavior. New additions include: two all new chapters on assessment and mindfulness, multicultural and diverse case examples, as well as access to online video sessions that accompany the text.

How to Parent with Your Ex Brette McWhorter McWhorter Sember 2005-06-01 This manual is the only book designed for both residential and non-residential parents. Formatted and printed in a back-to-back manner, the book encourages both sides to understand the other's point of view, and so enables both parents to make the most of time spent with the children. How To Parent with Your Ex provides support for the difficult situation the non-residential parent is in and practical, to-the-point advice about how to reap the most benefits from the visitation time available. Conversely, it addresses the role of the residential parent and the need to understand the changing relationships the child is going through. By focusing on the child, both parents are able to solidify a special relationship with the child and maintain necessary, positive communication with the ex-spouse. Appendices for this text include various parenting organizations, publication resources, related websites and sample visitation plans and schedules.

Handbook of Diversity in Parent Education Marvin J. Fine 2000-10-09 Traditionally, books on parent education have focused on techniques from a certain tradition, either behavioral or humanistic, that could be applied to any problem of parenting or child behavior change. These books have used a "cook-book" approach that is frequently oblivious to environmental conditions that influence behavior or take into account the individual differences of the children or families involved. This book highlights the complexity of our society and times by exploring the problems faced by diverse types of parents, children, and parenting situations. Moreover, the sensitive issues of parenting in unique populations are handled in a caring, straight-forward way with an emphasis on research-based parent education programs along with tips and strategies for everyday use. Premier text on parent education in diverse populations Features tips, strategies, websites and support for parents Based upon "cutting edge" research in parent education Models for developing problem-specific parenting programs Step-by-step parent education programs for low-incidence problems Features violence and crisis prevention and intervention skills for families

Self-Efficacy Beliefs of Adolescents Tim Urdan 2006-02-01 The introduction of the psychological construct of self-efficacy is widely acknowledged as one of the most important developments in the history of psychology. Today, it is simply not possible to explain phenomena such as human motivation, learning, self-regulation, and accomplishment without discussing the role played by self-efficacy beliefs. In this, the fifth volume of our series on adolescence and education, we focus on the self-efficacy beliefs of adolescents. We are proud and fortunate to be able to bring together the most prominent voices in the study of self-efficacy, including that of the Father of Social Cognitive Theory and of self-efficacy, Professor Albert Bandura. It is our hope, and our expectation, that this volume will become required reading for all students and scholars in the areas of adolescence and of motivation and, of course, for all who play a pivotal role in the education and care of youth.

Handbook of Crisis Counseling, Intervention, and Prevention in the Schools Jonathan H. Sandoval 2001-10-01 Featuring new chapters on bullying, sexual assault, natural disasters, eating disorders, and cultural considerations, the second edition of this highly popular Handbook provides a one-stop reference for mental health professionals who face a bewildering variety of school-based crises. Key features include a focus on both prevention and intervention and ongoing discussions of the research that underlies best practice. Like the first edition, chapters follow a parallel structure that includes: \*the incidence, prevalence, and impact of the crisis; \*theories regarding precipitating factors; \*discussion of who is at risk for encountering the crisis; \*primary prevention activities; \*methods of working with high-risk clients; \*developmentally-appropriate methods and intervention activities for individuals; and \*developmentally-appropriate methods and activities for groups. The result is an unusually coherent volume that is suitable for graduate work in school psychology, school counseling, school social work, and school nursing, or as a reference work for in-service practitioners.

The Parent's Handbook Don C. Dinkmeyer, Sr. 1997 One of the country's most popular parenting guides. Helps parents meet the challenges of raising a family today. The Parent's Handbook shows parents how they can become more knowledgeable, confident and successful in relating to their children. Discusses misbehavior, communication, encouragement, natural and logical consequences, family meetings, drug and alcohol abuse prevention. The STEP approach to parenting is based on the belief that every child and every parent has equal human worth and dignity. All are entitled to mutual respect. The system of discipline taught in STEP stresses this type of relationship. The authors believe that parents should provide opportunities for children to make decisions, within limits, allowing children to be responsible for their decisions. Other skills that are taught: identifying the four goals of misbehavior understanding beliefs and feelings encouraging your child and yourself reflective listening and I messages helping children cooperate discipline that makes sense Each chapter has activities titled "This Week", "Just for You" and "For Your Family". When you study and apply the STEP ideas, you are on your way to becoming a more effective parent, building a happy home. There is a Spanish edition of this book available: Guía para los padres.

God Loves Single Moms Teresa Whitehurst 2010-11-01 Written by a psychologist who's successfully navigated single motherhood herself, this book helps single moms believe they and their families deserve the best life has to offer. Packed with practical tips, smart strategies, and ways to improve the well-being of single moms and their children, this book shows single moms how to improve their leadership and parenting skills. It tackles pressing issues such as self-care, a support network, organizing, finances, discipline, and more. Teresa Whitehurst reminds single moms that they don't need to be overwhelmed and that God loves them, is on their side, and wants to guide and support them every step of the way. While they may get weary, they need never feel alone.

Counseling Across the Lifespan Cindy L Juntunen 2002 Counseling Across the Lifespan expands the perimeters of counseling with its emphasis on preventive techniques for adjustment problems in the lifespan of a normal individual. This cogent work focuses on counseling intervention strategies from the unique perspective of an individual's lifespan, placing techniques in the proper development context. By concentrating on life stages—from childhood through old age—the authors identify the nature and origin of various psychological issues such as self-identity and healthy lifestyle development in adolescents, family violence in young adults, or retirement transitions for older adults. The intervention tools needed to confront these issues are presented through succinct pedagogical features including case examples, checklists for evaluating clients, and exercises.

Parenting Errors Dr Kerby T. Alvy 2017-06-23 All parents are prone to making errors in raising children, because parenting is an inherently difficult, demanding, and complex job. This book clarifies the many and interrelated responsibilities of parents, defines what parenting errors are, and provides a unique approach to solving them. The approach involves honestly discussing errors with children and then moving into action to remedy whatever damage may have been done. The author encourages readers to share with him their experiences in utilizing the approach. The book then provides, for immediate use, some excellent ways of relating to and raising children. Included are an array of fine parenting education programs and how to easily access and make the best use of them. Additional resources for becoming the best parent possible are also part of this highly practical book.

Family Violence Mildred Daley Pagelow 1984 "Mildred Pagelow's Family Violence . . . is a liberal rather than radical book. Pagelow believes that experts on family violence must have 'an underlying faith in the goodness of people,' since 'there will always be a majority of people who struggle against violence.' . . . Her book is encyclopedic in its coverage, presenting the data on the extent of the problem of family violence, various perspectives and explanations for family violence, child abuse and neglect, spouse abuse, other kinds of abuse, including children abusing other children and abuse of elderly parents." Family Life in Adolescence Patricia Noller 2014-01-01 Many parents fear the time when their beautiful happy children will become unmanageable adolescents continually engaging in risky or destructive behaviour. Unfortunately, this view of adolescents is the focus of the media, even though it relates to just a small proportion of young people. As the large amount of research we report shows, most adolescents are responsible young people who care about their families and crave the support of their parents. It is also true, however, as much research indicates, that the quality of the relationship parents have with their adolescents is crucial to the wellbeing of those young people. We discuss the need for parents to set reasonable limits on their adolescents and to expect appropriate behavior. We also show, on the basis of research, that children who have experienced positive, caring relationships with their parents are more likely than other adolescents to behave responsibly. In other words, behavior in adolescence does not 'come out of nowhere' but builds on earlier experiences in the family. Because of the large amount of research reported in this volume, we expect that it will be useful to practitioners from a range of professions that are likely to focus on adolescents: social workers, youth leaders, welfare workers, religious leaders, psychologists and psychiatrists and contribute to a better understanding of young people and their development, and the importance of families to that development.

Case Documentation in Counseling and Psychotherapy: A Theory-Informed, Competency-Based Approach Diane R. Gehart 2015-02-27 CASE DOCUMENTATION IN COUNSELING AND PSYCHOTHERAPY teaches counselors and psychotherapists how to apply counseling theories in real-world settings.

Written in a clear, down-to-earth style, the text provides a comprehensive introduction to case documentation using four commonly used clinical forms: case conceptualization, clinical assessment, treatment plan, and progress note. These documents incorporate counseling theory and help new practitioners understand how to use theory in everyday practice. Case studies illustrate how to complete documentation using each of seven counseling models. Readers also learn about the evidence base for each theory as well as applications for specific populations. Designed to produce measurable results that have value beyond the classroom, the text employs learning-centered, outcome-based pedagogy to engage students in an active learning process. Its case documentation assignments-created using national standards-help students apply concepts and develop professional skills early on in their training. When students become practicing mental health professionals they can use this book-with its practical overviews of theories, conceptualization, treatment planning, and documentation-as a clinical reference manual. The Parents' and Educators' Manual of Teenage "Rebirth" Bruce G. Bentley 2012-10-17 Adolescence marks a special and unique stage in human growth and development, but it can be an extremely challenging time for both parents and teenagers. In The Parents and Educators Manual of Teenage Rebirth, author Bruce G. Bentley provides an understanding of how teenagers think, feel, and experience themselves in relation to others and the world with the goal of assisting them in their battle to master adolescence. To help those caring for teens gain a greater understanding of child and adolescent psychology, Bentley applies principles of those disciplines, along with psychologically pertinent literature, to real-life stories of puberty, bullying, aggressive behavior, abuse, and suicide. This manual provides parents and educators with effective tools to understand, inform, challenge, and guide teens through adolescence so they can develop an independent and strengthened adulthood. It also offers teens a descriptive road map of what they can expect and what they can do to help ease anxieties and fears as they encounter life's uncertainties; it helps them to be better prepared for the changes or "rebirths" into new realms of relationships and responsibilities. The Parents and Educators Manual of Teenage Rebirth aims to ease the journey through the dark, mysterious, and wonderful world of adolescence with its joys and struggles and beyond.
