Sticks, Stones, and Shadows Martin Isler 2001 What do the pyramids of Egypt really represent? What could have driven so many to so great, and often so dangerous, an effort? Was the motivation religious or practical? Illustrated with more than 300 photographs and drawings, this book presents an original approach to the subject of pyramid building. It reveals the connection between devices that served both a practical need for survival and a spiritual belief in gods and goddesses. It examines Egyptian technologies and techniques from the origins of pyramid development to the step-by-step details of how the ground was leveled, how the site was oriented, and how the stone was raised and placed to meet at a distant point in the sky. Here the author also asks and answers questions virtually ignored for the last century. He discloses, for example, the ancient use of shadows, now denigrated to the ornamental back-yard sundial, but once an important tool for telling the height of an object, geographical directions, the seasons of the year, and the time of day. He also reinterprets the ancient "stretching of the cord" ceremony, which once was thought to have only religious significance but here is shown as the means of establishing the sides of a pyramid.

Stonehenge John David North 1996 Argues that Stonehenge's scientific purpose was to observe the setting midwinter sun, and that astronomical observations made by the ancient Britons were as rational and methodical as they are today

Then & Now James Cummins 2004 James Cummins's first book of poems, *The Whole Truth*, became known throughout much of the poetry world as the "Perry Mason sestinas." His second book, *Portrait in a Spoon*, was chosen by Richard Howard for the James Dickey Prize Contemporary Poetry Series. His latest and most accomplished work is collected in *Then & Now*, which reflects the same inventiveness and wit evident in his earlier books, with a deepening of tone and spirit. The result is a collection of poems filled with feeling and with Cummins's signature anguished humor. If the language of poetry is a way into a hall of mirrors of the self, it can be a way out, too. The voice that emerges in *Then & Now* is sane, imaginative, bemused, and sly, not only taking responsibility for the character of the writer put fully on display, but ironically and affectionately exploring how this process occurs.

Prehistoric Astronomy in the Southwest J. McKim Malville 1989 Archaeoastronomy is a discipline pioneered at Stonehenge and other megalithic sites in Britain and France. Many sites in the southwestern United States have yielded evidence of the prehistoric Anasazi's intense interest in astronomy, similar to that of the megalithic cultures of Europe. Drawing on the archaeological evidence, ethnographical parallels with historic pueblo peoples, and mythology from other cultures around the world, the authors present theories about the meaning and function of the mysterious stone alignments and architectural orientations of the prehistoric Southwest. Carrie returns from Australia at the end of an ill-fated affair with a

The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. False Horizon Sue Standing 2003 The lyrics in Sue Standing's False Horizon quietly celebrate the lust that is living, the lust that is memory. These poems, some of which are set in the far reaches of Africa and India, argue for the primacy of the present tense, a present tense that shines erotically out from under the beautiful drapery of a manifold rich and cultural world history. Therefore, False Horizons is a book full of sensations. Standing writes a wonderfully understated poetry about the intimacies of experience. She says, "I need a life that won't diminish."
